

EDYA DAY

We work in Idya on a management strategy that focuses on the continuous development of Idia and raising the efficiency of the Idia staff, which reflects on raising the quality of the services provided by Idia. We also ensure that we always adhere to the quality standards in our services and based on a good relationship with our valued customers and get their full satisfaction .

Our company has a long value in investment and trade and we have over 20 years of management experience. We have steered in the work of smart vending devices to better, higher and more experienced from Korean and Chinese factories to get a result befitting the name of our company and befitting the honour of working with entities and places with a standing in society in general such as airports, hospitals, universities and malls .

About Us

An emerging Saudi startup with high ambitions to offer real competition in the field of restaurants, cafes and desserts, introduce new services and innovate new experiences in catering to customers to add pleasure to food and strive to lead the restaurant and café sector to quality for our customers .

Our Vision

To be a key part in improving quality of life by developing the restaurant and café sector and moving to the level of global competition on both sides of quality and excellence. We look forward to being a global brand in the future through quality of service and expanding our presence locally and globally. Preserving and maintaining its status as an innovative and leading brand preferred by its domestic and foreign customers through our understanding of high quality products and services

To be in the field of continuous research and development by following global trends in the development of human sensitive products and the environment
Being a brand can inspire other brands in the same sector.

WHO
WE
ARE
